BRAIN RESEARCH

VOL. 694 NOS. 1,2 **CONTENTS** **2 OCTOBER 1995**

Cited in Biological Abstracts (BIOSIS) – Chem. Abstracts – Index Medicus (MEDLINE) – Current Contents (Life Sci.) – Excerpta Medica (EMBASE) – Psychological Abstracts (PsycINFO) – Pascal et Francis (INIST-CNRS) – RIS (Reference Update) – Current Awareness in Biological Science (CABS)

Research reports

High frequency (gamma-band) oscillating potentials in rat somatosensory and auditory cortex
K.D. MacDonald and D.S. Barth (USA) 1

Morphine-3-glucuronide: hyperglycemic and neuroendocrine potentiating effects
Y. Hashiguchi, P.E. Molina and N.N. Abumrad (USA) 13

Effects of prenatal testosterone treatment on sex differences in the EEG activity of the rat
J. Juárez, M. Corsi-Cabrera and I. Del Río-Portilla (Mexico) 21

In vitro electro-pharmacological and autoradiographic analyses of muscarinic receptor subtypes in rat hypothalamic ventromedial nucleus: implications for cholinergic regulation of lordosis
L.-M. Kow, Y.-F. Tsai, N.G. Weiland, B.S. McEwen and D.W. Pfaff (USA) 29

Difference in LTP at basal and apical dendrites of CA1 pyramidal neurons in urethane-anesthetized rats
L.R. Roth and L.S. Leung (Canada) 40

Partial characterization of K^+-induced increase in $[Ca^{2+}]_{cyt}$ and GnRH release in GT1-7 neurons
M.A. Javors, T.S. King, X. Chang, N.A. Klein and R.S. Schenken (USA) 49

Bilateral connections from ventral group inspiratory neurons to phrenic motoneurons in the rat determined by cross-correlation
J. Duffin and J. Van Alphen (Canada) 55

Axotomy transiently down-regulates androgen receptors in motoneurons of the spinal nucleus of the bulbocavernosus
J.L. Lubischer and A.P. Arnold (USA) 61

Hypothalamic and thalamic sites of action of interleukin-1β on food intake, body temperature and pain sensitivity in the rat
S. Sellami and R. De Beaurepaire (France) 69

Vasodilatory actions of calcitonin gene-related peptide and nitric oxide in parenchymal microvessels of the rat hippocampus
A. Fergus, Y. Jin, Q.-A. Thai, N.F. Kassell and K.S. Lee (USA) 78

Graded expression of immunomolecules on activated microglia in the hippocampus following ischemia in a rat model of ischemic tolerance
H. Kato, K. Kogure, T. Araki and Y. Itoyama (Japan) 85

Time course of protein changes following in vitro ischemia in the rat hippocampal slice
K.M. Raley-Susman and J. Murata (USA) 94

Chronic morphine-treated sensory ganglion neurons remain supersensitive to the excitatory effects of naloxone for months after return to normal culture medium: an in vitro model of 'protracted opioid dependence'
S.M. Crain and K.-F. Shen (USA) 103

Neuronal activity in the striatum and pallidum of primates related to the execution of externally cued reaching movements
D. Jaeger, S. Gilman and J.W. Aldridge (USA) 111

Glycogen phosphorylase activity in the cerebral cortex of rats during development: effect of homocysteine-induced seizures
J. Folbergrová (Czech Republic) 128

Glucose attenuation of atropine-induced deficits in paradoxical sleep and memory
W.S. Stone, R.J. Rudd and P.E. Gold (USA) 133

Nicotine administration reduces neuropeptide Y and neuropeptide Y mRNA concentrations in the rat hypothalamus: NPY may mediate nicotine's effects on energy balance
H.M. Frankish, S. Dryden, Q. Wang, C. Bing, I.A. MacFarlane and G. Williams (UK) 139

Translational suppression of calpain I reduces NMDA-induced spectrin proteolysis and pathophysiology in cultured hippocampal slices
E. Bednarski, P. Vanderklish, C. Gall, T.C. Saido, B.A. Bahr and G. Lynch (USA, Japan) 147

Mechanisms of injury-induced calcium entry into peripheral nerve myelinated axons: in vitro anoxia and ouabain exposure
E.J. Lehning, R. Doshi, P.K. Stys and R.M. LoPachin, Jr. (USA, Canada) 158

Stereological estimates of postnatal structural differentiation in a sexually dimorphic hypothalamic nucleus involved in vocal control
S.D. Holman, P. Collado, A. Rice and J.B. Hutchison (UK, Spain) 167

Nitric oxide synthase inhibition does not impair visual or spatial discrimination learning
J.R. Tobin, L.K. Gorman, M.G. Baxter and R.J. Traystman (USA) 177

Circadian rhythms in mice can be regulated by photoreceptors with cone-like characteristics
I. Provencio and R.G. Foster (USA) 183

Skeletal muscle contraction modulates carbonic anhydrase phenotype in adult mouse dorsal root ganglion neurons
V. Mayeux and J. Valmier (France) 191

Suppression of motor cortical excitability by magnetic stimulation of the cerebellum
Y. Saito, T. Yokota and T. Yuasa (Japan) 200

(contents continued on p. 324)

0006-8993(19951002)694:1/2;1-1

(contents continued)

In rat pinealocytes the cyclic GMP response to NO is regulated by Ca^{2+} and protein kinase C
R. Spessert, G. Hill and L. Vollrath (Germany) 207
Brief potassium depolarization decreases levels of neurofilament proteins in CNS culture
J.S. Whitson, A. Kampfl, X. Zhao, C.E. Dixon and R.L. Hayes (USA) 213
Time-course of the effects of anandamide, the putative endogenous cannabinoid receptor ligand, on extrapyramidal function
J. Romero, R. De Miguel, E. García-Palomero, J.J. Fernández-Ruiz and J.A. Ramos (Spain) 223
Ultrastructural localization of inhibin β- and somatostatin-28-immunoreactivities in the paraventricular and supraoptic nuclei
P.E. Sawchenko and S.W. Pfeiffer (USA) 233
A sensitive microassay reveals marked regional differences in the capacity of rat brain to generate carbon monoxide
J.T. Laitinen and R.O. Juvonen (Finland) 246
Anions modulate cation-induced responses of single units of the frog glossopharyngeal nerve
Y. Kitada (Japan) 253
GABAergic modulation of optic nerve-evoked field potentials in the rat suprachiasmatic nucleus
R.L. Gannon, M.J. Cato, K.H. Kelley, D.L. Armstrong and M.A. Rea (USA) 264
β-Adrenoceptor control of cardiac adenylyl cyclase during development: agonist pretreatment in the neonate uniquely causes heterologous sensitization, not desensitization
C.E. Giannuzzi, F.J. Seidler and T.A. Slotkin (USA) 271
Adrenoceptor antagonists block c-fos response to stress in the mouse brain
E.A. Stone and Y. Zhang (USA) 279
Microglial cell reaction in the gray and white matter in spinal cords from jimpy mice. An enzyme histochemical study at the light and electron microscope level
J.M. Vela, I. Dalmau, L. Acarín, B. González and B. Castellano (Spain) 287
Amphetamine induction of c-*fos* in the nucleus accumbens is not inhibited by glutamate antagonists
A. Dalia and L.J. Wallace (USA) 299

Short communications

The antioxidant LY 231617 ameliorates functional and morphological sequelae induced by global ischemia in rats
F. Block, W. Schmitt and M. Schwarz (Germany) 308
Effect of chronic restraint stress on dendritic spines and excrescences of hippocampal CA3 pyramidal neurons—a quantitative study
Sunanda, M.S. Rao and T.R. Raju (India) 312
Repeated postnatal phencyclidine administration in female juvenile rat delays onset of puberty but has no effect on pentylenetetrazol-induced seizure-susceptibility
R. Sircar (USA) 318
